

Dear Business Owner,

As a valued customer, you deserve every advantage we can offer. That's why I'm writing to offer you our new Austin Bank Business Debit MasterCard. You already know how convenient it is to use your personal Austin Bank Check & ATM card to pay for your business purchases and get cash. Now Austin Bank is providing even more benefits through a new check card designed exclusively for your business checking account: the **Austin Bank BusinessCard**.

At Austin Bank, it's all about convenience - Take advantage of the same convenience you've enjoyed with your Austin Bank debit card now with a new Austin Bank Business Debit MasterCard. With your new business debit card, you no longer have to carry your business checkbook or write business checks. This easy payment tool combines an ATM card and your business checkbook, providing convenient, instant access to your business checking account funds.

Plus, it's easy to keep business and personal expenses separate - The Austin Bank BusinessCard makes it easy to keep track of business expenses and separate personal purchases from business activities.

More control over company expenses – You will receive an itemized listing of all transactions on your monthly business checking account statement, which can make it easier to monitor employee spending, identify potential tax deductions, and fill out expense reports. This is especially valuable at tax time. And the Austin Bank BusinessCard may be used as an ATM card, too.

More convenience than petty cash – The more you and your employees use the card for everyday business expenses (like office supplies, gasoline, or business lunches), the less time you'll spend reconciling your company's petty cash account.

More protection than cash or checks – Most purchases made with your debit card (including computers, fax machines, and other business equipment) are automatically covered by theft and damage protection, plus extended warranties.

More security for business travelers – Cardholder benefits include free emergency travel assistance from over 75 countries, 24 hour roadside assistance, emergency medical protection and legal referrals, plus access to cash via the MasterCard/Maestro/Cirrus ATM network in over 190 countries and territories.

So don't miss this opportunity to make your business checking account work harder than ever. To request the business debit cards for yourself and key employees, simply bring the attached form to any Austin Bank location. If you have questions, please call **800-644-9275 ext. 2222**. Thank you for banking with Austin Bank and be sure to let us know how we may further meet your business needs.

Sincerely,

Linda Douglas
