

2025 Community Service Volunteer Officer General Award

Congratulations to SEAN DEBOER!

Sean DeBoer
Banking Officer
Relationship Manager
Gilmer

"Throughout my time with Rotary, I have combined the Austin Bank core values and professionalism to lead and better our club. I have been able to open doors for the bank to support and sponsor our community in an impactful way."

- Sean DeBoer

Sean DeBoer, Banking Officer and Relationship Manager, was selected as a 2025 Community Service Award winner to recognize his work with the Rotary Club of Gilmer. DeBoer currently serves as President for the organization.

The Rotary Club provides local and global support to those in need through fellowship of businesses, local professionals, and community leaders. Their creed – "Service Above Self" – enables them to complete initiatives benefitting the Gilmer community while simultaneously partnering with Rotary International to tackle global projects. Some of the local projects include a backpack program for elementary students providing meals for the weekends, a collaboration to provide dictionaries to third grade students to bolster literacy, and partnerships with the local police department to provide funds for the Blue Santa program.

In his second term as President, DeBoer oversees weekly meetings, monthly board meetings, and annual goals meetings. Under his leadership the club has increased membership numbers, increased financial giving, increased volunteer support, and continued to provide a platform for other charities and volunteer organizations to spread awareness of their missions.

DeBoer joined the bank in 2018 as a credit analyst and now assists customers with consumer and commercial lending in the Gilmer office. In addition to graduating from Troup High School and The University of Texas at Tyler, he has completed several banking courses including Commercial Financial Analysis, the bank's Community Banker lending school, and the American Bankers Associations Commercial Lending school. He resides in Tyler.
